- a) **Cautions:** When an incident happens, the Insured will be bound to exercise all actions to avoid or minimize damage. If there is no danger due to the delay, he/she will ask for directions from the Insurer and must abide by them.

Expenses incurred by the Insured which are not specifically inadmissible will be covered by the Insurer and if the Insured acts according to the Insurer's instructions, these expenses will be paid in advance.

If the Insured does not comply with the aforementioned duties, the Insurer's liability will be limited to compensating the Insured for the suffered damage only up to the amount that would have been paid had the Insured complied with such obligations.

- b) **Claim Notification:** When an occurrence covered by this Policy takes place, the Insured will be bound to notify the Insurer as soon as he/she knows about the incident within a maximum 5 day period, except in cases of force majeure or unforeseeable circumstances, thus notifying upon the end of the mentioned event and before leaving the Mexican Republic; failure to notify within the herein stated period of time shall result in reducing the compensation to the amount that would have been paid had the Insurer received prior notification.

If the Insured fails to notify the Insurer within the Mexican Republic, the Insurer shall be freed from all its obligations derived from this Policy.

The insurer will have the right to require the insured or a beneficiary all sorts of information about the facts related to the incident and by which the circumstances of their realization of the claim can be determined as well as the consequences of the same.

- c) **Notice to the authorities:** Submit formal complaint before the competent Mexican authorities, in the case of theft or other criminal acts that can be a cause of claims under this Policy, as well as cooperate with the insurer to achieve the recovery of the vehicle or of the amount of damages suffered.
- d) **Concurrence of Coverages:** In case of concurrence of coverages, the Insured will have the obligation to present the claim to the insurer of his country of origin. Likewise when the insured drives inside toll roads, he will need to cooperate and submit a claim against the toll road insurer, to the Secretary of Communications and Transportation (SCT) or to any other involved party in the concurrency.

- e) **Remittance of documents:** The Insured is bound to inform the Insurer, as soon as he/she gains knowledge, of claims or legal disputes received by him/her or his/her representative(s), remitting the documents or copies received by him/her.

If the Insured fails to comply with this obligation, the Insurer will be freed from covering any corresponding compensation to the affected coverage due to a claim. **The Insurer shall not be bound to acknowledge debts, transactions or any other legal act of a similar nature made or agreed upon with its consent. The admission of a material fact cannot be considered acknowledgement of liability.**

- f) **Insured cooperation and assistance to the Insurer.** At the expense of the Insurer, the Insured is bound in all civil proceedings that could be started against him/her due to liability covered by the Insurance:

- The Insurer shall have full freedom for the process management or settlement of any claim and the Insured will provide any necessary information or assistance.
- i) Any assistance that the Insurer or its representatives offer to the Insured or third parties should not be construed as acceptance of the claim's admissibility.

10th Clause. Other Insurance

The Insured is bound to immediately give written notification to the Insurer about the existence of any other Insurance hired with another Insurer for the insured vehicle, covering the same risks and for the same interest, indicating the limit and the names of each one of the Insurers, according to article 100 of the Insurance Contract Law (Ley Sobre el Contrato de Seguro).

In accordance with article 102 of the Insurance Contract Law, another or other Insurance(s) covering the same insurable interest, entered into in good faith with the same or different dates and for a higher total amount of the value of the insured interest, will be valid and will bind each Insurer institution to the entire amount of suffered damage within the limits of liability that were Insured.

If the Insured intentionally withholds the aforementioned, or if he/she buys multiple Insurances to get an unlawful benefit, the Insurer will be freed of its obligations.

11th Clause. Assessment Bases and Damage Compensation

If the Insured has fulfilled the obligations of the 9th Clause Obligations of the Insured b) Notification of an Occurrence and the insured vehicle is free of any detainment, seizure, confiscation or any other similar situation carried out by the legally recognized Authorities who intervene in such acts in the exercise of their duties, the Insurer will be bound to begin the assessment of damage without default.

If the Insurer does not carry out the suffered damage assessment caused by the vehicle within the 72 hours following notification of the event, as long as it is in accordance with the previous paragraph, the Insured has the right to proceed with the repairs and demand the amount from the Insurer described in this Policy, unless that for imputable reasons

to the Insured, the damage assessment cannot be made. Completed the valuation and recognized its responsibility, notwithstanding the information in article 71 of the Insurance Contract Law, upon finishing the evaluation and acknowledging its liability, the Insurer will indemnify the owner of the Insured Vehicle with the suffered damage assessment amount accordingly to the date the loss happened.

Once the evaluation is begun by the Insurer, the suffered or caused damage will not be recognized if the Insured has proceeded in the repair of the vehicle without prior written consent of the Insurer, since this would not allow the Insurer to know about the existence or magnitude of the occurrence and the acts that concurred or influenced the event.

A. Partial Losses

Compensation of partial losses shall be comprised of the invoice value of parts and labor plus the taxes that they incur in. In all cases, upon making the assessment of losses, the price of parts or accessories on the date the loss happened shall be taken into consideration.

If the Insured chooses to carry out the vehicle's repair in his/her country of origin, labor costs may not be higher than the labor costs stipulated in the Certificate of Insurance and/or Policy Specification.

In the event that the vehicle suffers damages requiring sold-out parts for its repair, the Insurer's liability shall be limited to paying the Owner of the Insured Vehicle the amount for those parts according to the list price at dealerships, plus the installation cost agreed upon by the Insurer and the Insured or, if an agreement cannot be reached, it will be settled by an expert's opinion.

The corresponding deductible will be decreased from the affected sections over the above calculated amounts.

B. Total Losses

When the valuation made by the Company, proves that the Property Damage to the Vehicle exceeds 60% of the sum insured that corresponds to the contracted Policy at the time of the loss, the Company, previous to the authorization of the Insured, may consider the vehicle as a total loss; however payment may not in any case exceed 75% of the commercial value stipulated in clause 5th. Insured Amounts minus its respective deductible, since it is a foreign vehicle temporarily imported into national territory and in no case the Company will pay and/or acquire the property salvaged from the Vehicle.

If the assessment made by the Company for Property Damage exceeds 75% of the sum insured, the Company will consider that the Vehicle is a Total Loss and only pay 100% of the Commercial Value minus your deductible once the Insured confirms donation and destruction of the vehicle by Mexican authorities through the corresponding records or when the Insured delivers to the Company, by endorsement, the Certificate of Title of the country of origin, exempt from any tax, otherwise the salvage value of the compensation will be deducted.

If for some reason or reasons attributable to the Insured, after 60 days from the date of loss the compensation cannot be paid out; the total loss will be compensated based on the Commercial Value of the Vehicle, as described in the preceding paragraphs, but instead of taking into account the value at the date of the loss, the value will be taken from the date on which all documents required for processing the compensation are delivered to the Company.

In the case of Total Theft, the Company will pay the liability limit specified in clause 5. Insured Amounts, as long as the Insured delivers the Certificate of Title from the country of origin, exempt from any tax, minus the applicable deductible.

C. Guidelines for the Repairs of the Damages to the Insured Vehicle

The Insurance Company's responsibility is to locate potential suppliers that offer repairs and spare parts in the market, confirming their existence and availability to stock up as well as verify that the workshop or agency installs the spare- parts that have been requested and the repair is done adequately.

Spare parts will be replaced only when repairs cannot be guaranteed or have visible esthetic damages.

The repair time it takes to repair the Insured Vehicle will depend on the existence of parts and/or spare parts, as well as the necessary work in labor and/or painting, the Company must inform the Insured directly or through the repair facility, agent or its representative, the process and progress of the repairs, providing for a maximum delivery period of 20 (twenty) business days from the date on which the Insured has delivered the Vehicle to the Company or the repair facility. This period may be extended by 10 (ten) business days when there are unfavorable circumstances in the verifiable supply of damaged parts and/or components. In the event that once the previous deadline has passed, there were no parts and/or spare parts available due to a shortage, such period will be extended until the spare parts necessary for the repairs are available. In this case and depending on the shortage or whether the Insured did not accept the estimated repair process by the Company, the Company may choose to offer payment according to the amount of the damage assessed and the repairs pending to be carried out, considering what is provided for by the applicable indemnity conditions.

Criteria to determine the replacement or repair of damaged parts and components. The parts or spare parts will be replaced only in cases in which the repairs visibly damage its aesthetics or when the repair is not convenient for the Insured Vehicle. The availability of the parts is subject to stocks by the manufacturer, importer and/or distributor, so the Company's demand for their location in cases of generalized shortages is not the subject of this contract.

Terms of responsibility and guarantee of the Company on repairs. The Company's responsibility consists of locating possible suppliers that offer spare parts and parts, confirming their existence and availability to supply them; as well as verify that the workshop or agency installs the parts that have been requested and their repair is in an appropriate manner, leaving the Company's power to select the quality, origin and physical conditions of the same, with the understanding that they must not affect the functionality or aesthetics of the Vehicle. The Company will provide the Insured with a warranty certificate valid for one year for the work carried out to repair their Vehicle. Notwithstanding the provisions of the previous options, in the event of damage not detected at the time of the valuation and that is a consequence of the claimed incident, the Insured will notify the Company and present the Vehicle for evaluation and, if applicable, its corresponding repair.

Conditions applicable for indemnity payments. When the Company chooses to pay, it will do so with the express knowledge of the Insured or Beneficiary, who may choose one of the following modalities: a) Receive, according to the means of payment determined by the Company, payment for the damages suffered and included in the claim for the incident, which are appropriate according to the valuation carried out by the Company. b) That the Company makes the payment, according to the valuation it made, directly to the service provider that the Insured or Beneficiary has selected from among the agencies or automotive workshops with which the Company has agreements for this purpose and that are located available in the closest city to the scene of the accident. This option will operate with the same conditions applicable to repair of the Insured Vehicle indicated in the last point immediately above.

Conditions applicable to the replacement of the insured property. When the Company chooses to replace the affected property with another with similar characteristics (considering for those similar characteristics brand, type, model and mileage), it must notify the Insured or Beneficiary through the contact information that has been designated in the present insurance contract, so that it, in turn, expresses its satisfaction with this option.

In the event that the replacement option is not to the satisfaction of the Insured, the Company may always choose to pay the Insured in terms of the Conditions applicable in payment of this clause. In the event that the Insured agrees that the affected property be replaced, The Company will indicate the following process on how this replacement will operate: a) The Company will indicate to the Insured the location of the property susceptible to replacement; b) The Insured must go to carry out a review and evaluation of the property susceptible to replacement so that, where appropriate, the Insured can confirm their satisfaction with the replacement; c) The Company will inform the Insured that the replacement property has similar characteristics (considering for those similar characteristics brand, type, model and mileage) to the affected property and that it is subject to the warranty that the manufacturer, distributor, automobile lot or importer offers to the market. d) In the event that the Insured, after reviewing and evaluating the property susceptible to replacement, does not agree with it, the Company may choose to present another property for the consideration of the Insured or may choose to pay in accordance to what is indicated in these general conditions.

12th Clause. Compensable Proportion

In no case shall the Insurer apply compensable proportion.

13th Clause. Contracting the Use of Electronic Media

The Insured has the option of making use of electronic means (these being understood as equipment, optical or any other technology, automated data processing systems and telecommunications networks), for the execution of services or operations related to this Insurance Contract and that are available by the Company. The use of the aforementioned

Tourist Auto Southbound Insurance
(Foreign Plates in Mexico)

electronic means, without the Contractor and/or Insured having objected before their first use, will automatically imply the acceptance of all the legal effects derived from them, as well as the terms and conditions of their use.

The terms and conditions of the use of electronic media are available (prior to their first use) on the Company's website: <https://www.chubb.com/mx-es/condiciones-generales.aspx>

The premium agreed upon may be paid by the Contracting Party either directly to the insurance agent or through an automatic charge made by the Insurer to a credit or debit card or bank account when the Policy is bought through Internet.

While the Company does not deliver the premium payment receipt, the pay stub appears where the appropriate charge for the insurance premium or, in the case where the premium is paid by direct debit, credit card, debit card or bank account, the statement where the corresponding charge appears will be full proof of payment of the premium.

- II.
