

Photo Directions To The Tijuana Border From The Toll Road Via Calle Segunda

1. After passing through the last toll booth, you will see Playas de Tijuana on the left.

2. The road will pass over a valley after going under the foot bridge.

3. Next you will pass over another larger valley.

4. If you are familiar with the Vía Internacional route, this is where you would have exited right. Instead, continue straight.

5. A Pemex will be on the right. Take notice of the CENTRO/CALLE SEGUNDA sign.

6. Curve to the right and you will approach a stop light.

7. After proceeding through the light, the road will curve left down the hill past a cemetery (on the right).

8. Continue straight on Calle Segunda (aka Benito Juárez).

9. As you approach the border, follow the SAN DIEGO/I5 sign for the regular crossing. If you have a Fast Pass, follow the COL. FEDERAL sign.

10. There is a Smart & Final on the left as you approach the border. The gray SUV above is approaching the regular border line/VIA RAPIDA exit (the two left lanes). The red car is approaching the COL. FEDERAL exit (to the right of the concrete dividers which is the lane that is third from the left.) The COL. FEDERAL exit takes you to the Fast Pass Lane as well as the SENTRI.
